And It Got Done – Without Tolls!!

Congratulations to our State Senators, our State Assembly Members and our Governor who came together on a plan that avoids draconian fare hikes and ridiculous bus, subway and rail service cuts. Keep NYC Free – from the outset of this process maintained it could be done without tolls on our free bridges.

Our coalition stands ready to work with our electeds and others interested in the next step: a fair funding plan to support transit projects we need over the longer term. Many Keep NYC Free [alternatives](#) meet that imperative. If the toll-taxers can move past their fixation on that unfair, inequitable, unsound and inefficient scheme, everyone can focus on helping legislators to build a program that addresses transit and road finance needs.
