

A little effort please

We never want business to endure unfair fines or face what they call harassment in the form of overzealous enforcement. This does not appear to be the case when we learn that a private bus company avoids paying more than \$136,000 in fines. In the same [amNew York report](#) by Marlene Naanes, we learn they are not the top culprits. A quick look at the list of the top 10 cheaters – what else can you call them – indicates a debt to the City exceeding \$1.3 million. It behooves City Hall to collect from these scofflaws before they ask taxpayers to pony up. Instead of staffers pushing failed policies such as the congestion tax and trying – while no one watches – to press for son of the son of tolling, maybe the consultants and wonks working on a certain re-election campaign might develop some ways to ensure the Finance Department collects this dough.
